***Allowable Subject Matter***

Claims 1-16 and 18-20 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 1, 9, and 18, the prior art of record, taken alone or in combination, fails to disclose or render obvious the used of an elliptical cavity positioned adjacent to the point of impingement by a beam onto a substrate to capture the scattered light from the substrate and detect information incorporated into the scattered light in an optical measuring system for evaluating a substrate, in combination with the rest of the limitations of claims 1, 9, and 18.

As to claim 11, the prior art of record, taken alone or in combination, fails to disclose or render obvious an elliptical cavity assembly comprising a truncated elliptical cavity that is positioned with a surface under examination in combination with a quarter wave plate that can be tilted with respect to the beam axis for detection of surface scattered light in a reflectance surface analyzer, in combination with the rest of the limitations of claim 11.

As to claims 12, 13, and 19, the prior art of record, taken alone or in combination, fails to disclose or render obvious an optical measuring system for evaluating a substrate comprising a quarter wave plate that can be tilted with respect to an axis of an input beam, in combination with the rest of the limitations of claims 12, 13, and 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
